About Us

Kendall CAD provides an economical solution for your CAD and GIS needs.

Is your drafting department buried with work? Don't overwork your staff. Use Kendall CAD as a cost-effective solution to complete projects on time. Kendall CAD is available anytime, including weekends and evenings, to help you meet project deadlines.

Are you looking to hire a well qualified drafter for your company? Don't rush to hire just any CAD technician. Take your time finding the perfect candidate by using Kendall CAD to fulfill your immediate needs.

Do you need to import CAD drawings into GIS? Why hire a highly paid GIS Specialist? We can help! We currently use ArcMap® 9.2 and AutoCAD® Map 3D 2010. This allows us to import/export data seamlessly between CAD and GIS. We can georeference your CAD drawings to line up with your GIS data.

Kendall CAD ties in seamlessly by conforming to your company's existing drafting standards. Just send us an example, and we'll match our work to your existing style.

Kendall CAD provides professional drafting and mapping services at a competitive price. Our rates start at just \$30/hour!

Give us a try! You'll see why Kendall CAD is one of the leaders in providing CAD and GIS services.

2009 Standard Rates

Digitizing - \$30/hour

Drafting - \$30/hour

GIS Mapping - \$45/hour
